Tirumala Engineering College believes that Cleanliness is essential to stay healthy and away from diseases. The staff members of TEC identify the importance of general hygiene at the working place and surroundings in the campus. In this context, Tirumala Engineering College insists for maintaining hygiene in and around. NSS UNIT TEC focuses on maintenance of hygiene in the institute campus. It instructs all the faculty and staff to follow the self cleanliness. As a part of the above NSS UNIT TEC conducted a program called **“SWACCHA BHARATH BY STAFF”** for staff members who are working in the institution. This program involves in cleaning of the surroundings of the main building, maintenance of the class rooms, usage of dustbins.

All the staff members present on that day are actively participated in the program with commitment and dedication. They have cleaned different areas in the campus, internal roads in the campus. During this program, the staff participated even less in number as the situation is suffering from Covid – 19. Due to pandemic in the country all the schools and colleges were closed and a very less number of faculty members participated by following the guidelines of Covid – 19. Keeping the surroundings clean and hygiene is essential for survival in the time of pandemic and we have organized the swaccha Bharath program with staff members.
