PROJECT DETAILS:

- **Title** : Privacy Preserving Multi Keyword Ranked Search over Encrypted Cloud Data
- **Technology** : C#.Net,ASP.Net,Sql Server
- **Role** : Team Leader
- **Team size** : 5 members

Description:

we define and solve the challenging problem of privacy-preserving multi-keyword ranked search over encrypted cloud data (MRSE), and establish a set of strict privacy requirements for such a secure cloud data utilization system to become a reality. Among various multi-keyword semantics, we choose the efficient principle of “coordinate matching”, i.e., as many matches as possible, to capture the similarity between search query and data documents.
