A Blood donation camp was organized by our NSS unit, Tirumala Engineering College in collaboration with Indian Red Cross Society, Palnadu Region, Narasaraopet. Our College has been religiously organizing blood donation camps every year and students and the faculty members come forward voluntarily to donate blood. While addressing to people at the camp our NSS volunteers brought awareness in them about shortage of blood and why we must donate blood every year, to help the persons requiring blood. Blood donation can save lives of innumerable persons.

Donation of blood is very critical and crucial for saving lives many patients and those who have met with accidents. It is as such a great service or contribution to the society and people living in it. Blood donation is one of the most significant contributions that a person can make towards the society. The body of the donor can regenerate the blood within few days. It poses no threat to the metabolism of the body.

Our Principal Dr.Y.V.Narayana Garu initiated the program with the guidelines of the district Collector garu to participate in the voluntary blood donation program organized by the Indian Red Cross Society in Narasaraopet Government Hospital, Narasaraopet. 70 members of Tirumala Engineering College have participated in the camp along with 5 staff members. College arranged a bus from the college to hospital as a part of social responsibility. Principal, HODs, Staff members and NSS POs participated in the event along with student volunteers.
