Tirumala Engineering College conducted an inspire programme is an initiative by the NSS Unit of TEC to motivate and inspire the students of various fields regarding personality development and role of youth in building the good society. It also guides them about the responsibilities of the students towards the society. This programme is organized by the NSS Unit of Tirumala Engineering College.

Mr. G. Lakshmaiah garu is a renowned motivational speaker and Deputy Superintendent of Police, District Crime Records Bureau (DCRB), Guntur has delivered various inspirational lectures around the globe. He emphasized on the student behavior in the society and awareness on crime. He inspired the students to value the presence of parents, Teachers, Elders in the Society. He focused on how the students are entering in to crime and what are the reasons for their presence in the crime.

Mr G.Lakshmaiah garu quoted about the violence against women and children. Day to day the crime rate is increasing drastically and victims are suffering from the crimes. He advised the students not to involve in any such crime and criminal activities.

Mr.G.Lakshmaiah garu insisted all the students to stay away from drugs. Drug addiction may make you feel trapped and hopeless. Addiction takes over our lives and makes us forget the person we used to be. Many of the students believe that they do not have the strength to stop using alcohol or drugs but they are stronger than they believe. It may be easy to fall back on old patterns but we can beat our addiction and become sober. You must be determined focused, and work hard to remain sober.

Our Principal Dr.Y.V.Narayana garu introduced our key note speaker of the program to the students on the occasion. He is the driving force in organizing the event in the college campus with the association of NSS Unit. He himself is a motivational speaker and introduced the DSP of Police to students to create the awareness on crime, violence and drug addiction, etc. Mr.G.Lakshmaiah garu delivered a wonderful and inspirational speech that enlighten the minds of the young budding engineers.
